

CONTROL 8

Unit 1, Topic 7 – Careers in Control Technology

1. Create a new Docs inside Control 8 (Unit 1, Topic 1 to 7). Rename it: Unit 1, Topic 7 - Careers.
2. Your heading should be the same as this page with your name under it in italics.
3. Consider the following careers in “Control Technology”

HVAC (heating, ventilation and air conditioning)	Heavy equipment mechanic	Electrical engineer	Rocket scientist
Ship’s engineer	Automotive mechanic	Airline Pilot	Mechanical engineer

Choose TWO(2) of these careers (or other control technology-related careers that you prefer) and provide a brief description of each. Consider the following:

- What is a typical task for this worker? (What are their normal, daily jobs?) [3 marks]
- How is this career related to control technology? (What is being controlled? What are some control systems involved in this career choice?) [3 marks]
- What training/education/apprenticeship is required? [2 marks]

TOTAL: 16 MARKS (8 marks X 2 careers)
