

# Treatment: “Polois”

<p>1 - Keontae + Teegan [Opening Title Sequence/Scene 1]</p>	<p>In 2030 engineers invented a rocket engine that could make the rocket ship go at lightyear speed, so they could go to planets they never could before. In 2035 when the astronauts returned from the planet they named Polos, one of the astronauts became a killer, out of nowhere.</p>
<p>2 - Jacob + Gabe [medical facility]</p>	<p>The police stopped him, the scientist did a scan on him. They found out there was a brain parasite that changes their personality and makes them a killer. The only way to get rid of this parasite is this poisonous gas that the parasite is very sensitive to, but you can get very ill if you don't have the parasite. The parasite escaped before they could kill it.</p>
<p>3 - Rylan + Abbie [ext - Peterbilt Area]</p>	<p>There have been rumors that it's in Deer Lake, Newfoundland and Labrador, Canada, the reports have been of a weird human looking like creature wandering around at night. Oh I forgot to mention IT CAN SHAPESHIFT, I KNOW CREEPY(All of that will be told by someone not an actor).</p>
<p>4 - Jace + Matt [Xavier]</p>	<p>Nathaniel, Elio, Tessi, Domitoad, Demi , Var, Phil, Eric, &amp; Jenna were at school later in the day because they had to finish a group project, when bursts through the door and says that someone is dead in the office.They figured out that one of them had the parasite they needed to figure out quickly, but if they chose the wrong person, the person that inhaled the gas would get very ill, so they don't want that to happen to them, but if they choose the right person the parasite would die.</p>
<p>5 - Dawson + Aliyah [multiple rooms @ Xavier]</p>	<p>They discuss where they were before then. Tessi and Demi were by the cafe and saw Nathaneil go towards the office, but Nathaneil rejected that and threatened them that he would beat them up, Elio was in the classroom 8-2,</p>

	<p>Domitoad was in the bathroom, Phil was in the library and Rylan* was in the gym.</p> <p>Elio gave a bit of information, but not a lot because he is a bit shy and at the end they talked through it, they decided to get Phil out because he was close to the office, too close to be exact. He exclaims, "No! Please! It's not me!" But, they were convinced that it was him.</p>
6 - Noah Y. + Evan [supply room - basement]	<p>They continued their project, but still remained nervous. They had to all get supplies so they all split up.</p>
7 - Gia + Brookelynn C. [art room]	<p>When they came back they noticed Nathaniel was missing! They looked around and found him dead in the art room! They talked about where they were and Elio said he was in the class again.</p>
8 - Kyle + Noah M. [multiple rooms @ Xavier]	<p>Domitoad was in the home economics room, Var was in the tech lab, Tessi and Demi were together in the office. But, Demi left Tessi's sight for a minute. Elio said that he thinks that Demi is suspicious. He gives information, but Demi says that she was with Tessi the whole time. So, they vote him out. He gives them all the information he begged them, but again they were convinced.</p>
9 - Allie + Brooklyn P. [unspecified space]	<p>We need to add a scene that takes care of TWO(2) new characters: Eric &amp; Jenna. Does Demi kill them at the same time?</p>
10 - Dominic + Garrett [art room]	<p>They try to finish their project looking at each other <b>afraid</b>. They managed to finish the project and they all got ready.</p>
11 - Nate + Brian [foyer]	<p>10 minutes later but Domitoad was dead by the exit.</p>
12 - Sarah + Julie [art room/hallway]	<p>Tessi and Demi were convinced that it was Var because every time there was a body they were together they voted him out, but when they go back Demi kills Tessi (just shows a black screen when she dies)</p>
13 - Clare + Kyla [Xavier parking lot]	<p>Demi walks out free with the parasite controlling her.</p>
