

Group Work Rubric

Unit 3, Topic 1

10	Group worked perfectly with one another. Each partner did equal amounts of work on the 8-Step Design Process and the prototype.
9	Group work was nearly even. One partner did slightly more work.
8	Group work was fairly even. One partner did more work.
7	One partner did much more work. Disagreements begin to show in development.
6	One partner did much more work. Major disagreements are evident.
5	Group did not break up, but the work was very unevenly distributed and one partner did much more than the other. Arguments were common and mostly unresolved.
4	Group broke up. But, there were many signs of another's work in final presentation.
3	Group broke up. There were some signs of another's work in final presentation.
2	Group broke up. There were very few signs of another's work in final presentation.
1	Group broke up and could not work with one another. No sign of another's work in the final presentation.
