How to Upload Movies to YouTube

Step 1: If you are using Microsoft Movie Maker, click "Save Movie"

Step 2: Choose "For Computer"

Step 3: Navigate to your H:\ drive and give your movie a meaningful name.

Alternate Step 1: If you are using Magix Edit Pro, click the symbol in the upper right corner (arrow with circle around it).

Alternate Step 2: Choose "Output as video file".

Alternate Step 3: Choose "DVD" and "MPEG-4"

Finish movie	
Save movie on computer	
Select the desired level of quality and the file format	
Quality	
DVD quality	MPEG-4
DVD quality (720 x 576): Medium image quality, mid-sized files. Suitable for output on PC as well as on TV.	Select this format if you prefer to save your movie in higher quality (HD resolution).
