

Unit 3, Topic 4 – Investigation and Research

1. With your partner, find a minimum of FIVE(5) pictures on the Internet (use Google, Wikipedia, Popular Mechanics, How Stuff Works and other related web sites) of solutions that are similar to your problem.
2. Create a two-column table in Google Classroom that shows all the pictures you found from Step 1. In the first column, paste your picture. In the second column, write a brief paragraph explaining how it helps you solve your own problem. [10 marks]
3. During the last 7-10 minutes of class add another log entry to your Design Portfolio (What did you accomplish today?)

TOTAL: 10 MARKS
